

FB 4200 Servo

nilpeter

Pre-owned

A well-maintained Nilpeter FB 4200 Servo flexo press from 2011, offering reliable performance and solid production flexibility.

This 9-colour, 425 mm wide machine is fully servo-driven and equipped with both UV and hot air drying, making it suitable for a wide range of label applications.

With a maximum speed of 225 m/min and a repeat range from 7" to 24", the press is configured for efficient, high-quality output. It includes advanced features such as automatic plate positioning, register control, full GEW UV system, multiple hot air dryers, cold foil, dual rotary die cutting, lamination, and a sheeting module.

A complete and versatile production line, ready to be integrated into your operation.

Max Mechanical Speed:	225m/min (750fpm)
Max Web Width:	425mm (16¾")
Print Repeat Length:	177.8 to 609.6mm (7" to 24")
